Assignment –3

Overview of SQL.

1) Does ANSI recognize the data type DATE?

Ans.   **Yes**, ANSI (American National Standards Institute) does recognize the data type DATE.

In **ANSI** SQL (SQL standard), DATE is a valid and standard data type used to store calendar dates (year, month, day).

Internally date is stored as a number.

2) Which subdivision of SQL is used to insert values in tables?

Ans-   **Subdivision** of SQL used to insert values into tables in Data Manipulation Language (**DML**).

e.g.- INSERT INTO employees (id, name, hire date)

VALUES (1, 'Liu', '2025-09-18');
